## CROSS TIMBERS & RUSTIC TIMBERS RADIANT HEAT LOGS

Cross Timbers and Rustic Timbers form Hargrove's exciting new Radiant Heat Vented log series, offering much greater heating efficiency than traditional vented gas logs. These models are crafted in ceramic fiber, using an innovative new molding process, which allows us to recreate the highly detailed textures of nature found in our standard log series, while taking advantage of ceramic fiber's superior heat reflectivity and ability to glow naturally at a lower temperature than traditional log materials. Our Radiant Riser™ technology directs heat forward and helps push it into the room, giving radiant heat comparable to vent-free logs.

When ordering a Cross Timbers set, choose a Loose Log from the top of the page and match it with an Accessory Kit from pages 4 or 5.

### CROSS TIMBERS LOOSE LOGS

LOOSE LOG PART NUMBER	PRICE	WEIGHT LBS
CTS2108AA	\$356.00	12
CTS2409AA	\$419.00	15
CTS3010AA	\$482.00	20
CTS3611AA	\$524.00	20

Cross Timbers was the 2007 Vesta Award winner in the Gas Logs category.

Rustic Timbers carries this award-winning technology a step forward, with more detail and greater efficiency.

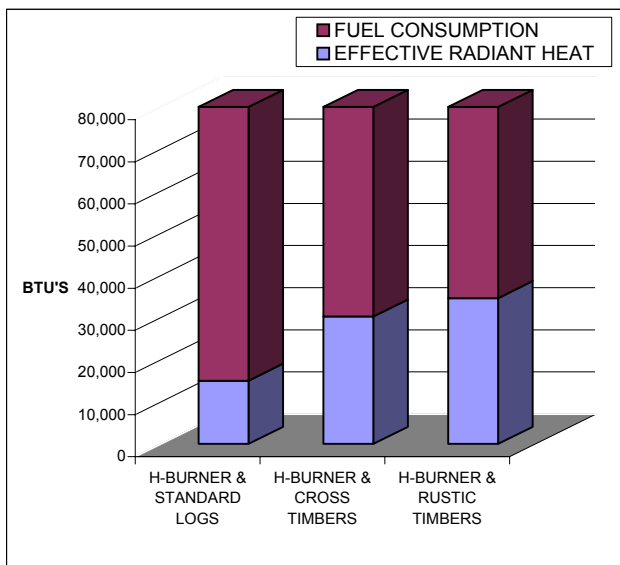

### RUSTIC TIMBERS LOOSE LOGS

LOOSE LOG PART NUMBER	PRICE	WEIGHT LBS

RTS2411AA	\$435.00	14
RTS3012AA	\$496.00	16
RTS3614AA	\$526.00	18

## Heating & Efficiency Comparisons

Cross Timbers and Rustic Timbers logs are designed to work effectively with any standard Hargrove accessory kit, however maximum heating efficiency is obtained when used with the System Four burner.

## SINGLE SIDE EMBER BURNER VENTED ACCESSORY KITS

\* When ordering a full set, choose a Loose Log from Page 2 or 3 and match it with an Accessory Kit below to obtain full set pricing.

\*\* Accessory Kits include: Burner Pan, Grate, Silica Sand, Embers, Vermiculite, Volcanic Cinder, Fittings, Connector,  
(LP Kits equipped with Vermiculite instead of Sand).

### FUEL SAVER ANSI Z21.60 (CSA) CONVERTIBLE ACCESSORY KITS

\* When ordering a full set, choose a Loose Log from Page 2 or 3 of the Suggested Retail Price Book and match it with an Accessory Kit below to obtain full set pricing.

The Fuel Saver gives excellent flame patterns from lower BTUs than standard pan burners, and features hidden controls and a convertible manual safety pilot that can be easily upgraded to On/Off or Variable remote operation with add-on accessories.

Accessory Kits include: Burner, Grate, Silica Sand (NG Sets), Embers, Fittings, Connector.

## MOUNTAIN TIMBER

Mountain Timber sets 30" and larger feature the Ember Supreme ES burner system, with a larger and deeper single burner pan and a deeper grate, to give you more flame than possible with previous designs for deeper fireplaces. Mountain Timber 30" sets are available for standard or Ember Supreme ES accessory kits. 21", 24" & 30" sets are designed for standard depth accessory kits and are listed on page 3. **PLEASE NOTE:** Ember Supreme ES Accessory kits are not available in liquid propane configurations.

When ordering a Mountain Timber set, choose a Loose Log from the top of the page and match it with an Accessory Kit from the bottom of the page.

## SUMMIT OAK SYSTEMS

When ordering a Summit Oak set, choose a Loose Log set and match it with an Accessory Kit on this page.

Summit Oak was specifically designed for large masonry and rumford-style fireplaces, offering more height and greater depth than a standard large log set.

Summit Oak features the Summit Oak burner system, with a secondary burner in the upper rear area of the set, to give you more flame height than possible with previous designs.

## KODIAK DOUBLE AND TRIPLE STACK SYSTEMS

When ordering a Kodiak Double Stack set, choose a Double Stack Loose Log set and match it with an Accessory Kit on this page.  
To order the Triple Stack kit, choose the appropriate Double Stack logs and accessory kit, and add the Triple Stack logs and kit.

Kodiak was specifically designed for large masonry and rumford-style fireplaces, offering 1" grate stock, more height and greater depth than a standard large log set, with a Double or Triple Stack accessory kit.

Kodiak's Double Stack burner system, features an ember burner in front, with the main burner in the middle area of the grate.  
 The Triple Stack option add a third rear burner and grate pedestal, to give exceptional flame height and set depth, for very large fireplaces.
